

Project Demonstration

Date	10 July 2026
Team ID	XXXXXX
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	5 Marks

Project Demonstration Overview

This section demonstrates the complete workflow of the EduGenie Google Gemini Powered Learning Assistant. The application accepts user inputs via a custom dark-themed interface, routes academic requests through a FastAPI backend, processes them using a hybrid cloud-local AI model cluster, and delivers tailored educational assets.

Application Feature

1. Q&A

2. Quiz Generator

3. Concept Explainer

4. Learning Path

5. Text Summary

Project Summary

The application was successfully executed and tested. All major functionalities, including the Gemini 2.5 Flash cloud-driven Q&A system, automated JSON quiz generation, text summarization, multi-level roadmap builders, local LaMini-Flan-T5 concept explanations, and custom card-grid dashboard navigation, worked successfully during the demonstration.
